Related Categories: Sandbox, Spirit, Health

This Wednesday [Sandbox gathering](#) we experience a group past life regression led by Randy Goldberg.

Within each of us appears to reside the events of past lives. A migraine, chronic lower back pain or knee problem may be telling a story from an old accident or wound. A chronic sore throat may derive from strangling, hanging or choking. As the soul returns to life over and over these traumatic memories are re-created in our current life, often making little sense, and keeping us from living peaceful lives. They are brought to our conscious awareness by anxiety, panic attacks, anger, depression, phobias, obsessions, nightmares and unexplainable physical pain. Past life regression allows us to see beyond the confusion and illusions of this life and brings about a healing of the past life that resonates into our present life. Through Past life Regression therapy, we awaken from the constrictions of our past conditioning to release blocks stopping us now..
