

Mark Dunn - disconnecting from national morphic field

After the Mark Dunn workshop in April I did some playing with disconnecting myself from the morphic field of the USA. Felt the pattern and how my pattern was connected, then asked them to separate out. I felt them shift after a little while. I felt good about it and didn't seem so attached to news about USA. Nothing much else seemed to have changed until I returned from my Peru trip to USA. Then

- US immigration quizzed me aggressively for about 20 minutes before letting me in (I am US citizen)

- US custom sent me through red channel for bag search

- United airlines lost my bags

- I worried that I might miss my connecting flight

Anyway throughout the process I just kept going low, worked on the pattern in front of me and was friendly and helply to the officials. It all worked out fine. (My bags were delivered a few days later). And then in line for TSA security I worked the pattern for somehow making my connecting flight even though I was about 15 minutes after takeoff time and feeling anxious. Well the flight was delayed for 45 minutes and I caught easily!

After this experience in 3D I decided to do some smoothing out of my field and USA field and last time I entered the country it went as smoothly as for the other US citizens in line (still got 5 minutes of immigration quiz but at least everyone did too - and that is a topic for another day)

I am wondering if anyone else has had experience with disconnecting from a large morphic field and what happened for you?

Michael
