Related Categories: Events

on January 29th through 31st, Mark Perlstein, a Nutritional Consultant and Live Blood Microscopist, will be having appointments right here at my house to do the actual Live Blood Cell Analysis for YOU. Does your blood look like

THIS:

OR THIS:

You can find out by making your appointment. The charge is a minimal \$50 which is very low compared to other testing facilities. I had Mark test my blood last , and was amazed at what I saw under the microscope!

"Nutritional Cleansing is the safe, effective way of shedding unwanted impurities from the body. Since the body stores fat to protect itself from these impurities, it can then eliminate the excess fat and lose the unwanted pounds and inches very quickly, within days in most cases. These systems also work well with athletes, lean people, and anyone who is under stress, no matter their age."

Appointment slots are limited, so please don't delay, in securing yours. Scheduling is being done by Glorie Magram on a first come - first served basis. Please contact her at [OGlorieGirl \(at\) aol.com](mailto:OGlorieGirl@aol.com) and provide your e-mail address and phone number.
