Tantra is an ancient form of Yoga and is unlike most forms of Yoga today it is non-postural yet it activates, clears and balances the Chakras (energy centers) of the body. When these centers are balanced, you feel more alive; you look more attractive and sexy, you manifest what you desire.

Tantra originates from 6000 year old Egyptian, Indian, and Tibetan practices that teach us what our bodies are capable of: more pleasure, agelessness.

Wouldn't you want these benefits if you found the practices quick and easy?

Learn something new and transform your life.

Here are some of my favorite quotes from Laurie's Sex & Happiness: The Tantric Laws of Intimacy book:

- "If I could distill all my advice about Tantra and sex into one sentence, that sentence would be, Make love in the unknown. In answer to all your fears and doubts about sex, I'd simply say to you, bring back your beginner's mind. Come to the bedroom with no expectation. Come with openness in your heart for whatever happens."
- "In Tantra you'll feel more peaceful, more tolerant, more aware of the world that has nothing to do with doing; everything to do with being."
- "Intimacy with another requires first and foremost coming to peace with your own emotional and physical needs."
- "Through Tantra, the power of sexual energy is able to render transformation."
